

PE Pipe Squeeze Off

Hy-Ram has been at the leading edge of Squeeze Off equipment innovation and manufacture for over twenty five years. Our range is amongst the largest in the world offering Squeeze equipment from 16mm to 500mm diameter... other larger sizes are currently in development. All Hydraulic units are available for hire as well as purchase and Hy-Ram offers a complete repair service for any type or manufacture of Squeeze Off equipment.

SQUEEZE TOOLS

Manual Squeeze Off Tools

Mini SOU

SOU42

Mini & SOU42 Squeeze Off Tools

Pipe range: 16 – 32mm diameter
& 16 – 42mm diameter

These tools are used to limit the flow in PE pipe. Squeeze off is affected by manually turning the handle in a clockwise direction.

Product Code	Description	Pipe Stops - dia. (mm)
089-000513	Mini Squeeze Off Unit	16 – 32
089-000655	SOU42 Squeeze Off Unit	16 – 42

SOU32
(16 – 32mm dia.)

SOU63
(20 – 63mm dia.)

SOU32, SOU63, SOU63HF, SOU125 Squeeze Off Tool

SOU32, SOU63, SOU63HF, SOU125 Squeeze Off Tool

These tools are used to limit the flow in PE pipe. Different diameters can be accommodated by using the appropriate 'Pipe stop' setting to ensure the optimum 'squeeze gap'.
