

AVK EXTENSION SPINDLE, FIXED LENGTH

04/06-001

For service connection valves, key adaptor #23-32

AVK extension spindles in fixed length are designed for ease of use and long service life. The design facilitates fast and easy shortening of the extension spindle as the complete adjustment can be done by mere use of a hacksaw. The extension spindles are made of corrosion-free materials and the bottom cover protects against penetration of impurities.

Product description:

Fixed extension spindle for service connection valves, key adaptor #23-32. For water, neutral liquids and gas

Features:

- The expanding bolt design facilitates easy height adjustment
- The conical key adaptor fits most standard T-keys
- The inner tube is press fit to the key adaptor and bottom adaptor to safeguard the galvanization of the tube
- The bottom cover protects the valve spindle from sand and dirt and enables it to rotate freely
- Fast "Safe-click" mounting by fixing the spindle adaptor to the valve stem with a split and turning the bottom adaptor until a "click" indicates fixation to the valve bonnet

Accessories:

T-key, surface box and support tile
